1. OGIER / INGRASSIA

« Not so happy with my drive on this one, the conditions were much drier than we thought. Not the best for these super soft tyres, so we were a bit on the safe side - but overall not a bad loop. »

2. EVANS / BARRITT

« Today has been better than how we started last night. Slippery, but the car has worked well. A bit on the safe side, we were expecting more rain. Overall the tyre choice wasn't far off. »

5. NEUVILLE / GILSOUL

« I can't be happy after our problems and the puncture today, but we are back in the top ten and now I think maybe top five is possible. The rally is still very long. »

8. TANAK / JARVEOJA

« I think overall it looks promising. A good drive. I know places where I can improve but otherwise I feel really nice with the car. It's good to be here at this point, but we have seen a very tricky event. Unpredictable as always, let's say. Now we just keep going and try to improve our pace. It's very important to get more experience in the car and improve the feeling. »

9. LAPPI / FERM

« This was the cleanest stage on the loop. A bit more damp, more enjoyable than the previous one, which was a nightmare. Craig has a problem, he was slow to leave the line and let us past very well, so thanks a lot.»

10. MEEKE / NAGLE

« I'm still not using the car to its full potential. »

11. BREEN / MARTIN

« My brakes made me lose more than one minute. I got a stone between the bleed nipple and the rim on the first stage and that broke it. We had three brakes for the next stage and now I have nothing. I can barely stop. Not nice »
